

Supply list for *Create a Glow with your use of Color* with Becky Joy

My palette is Gamblin paints:

titanium white
cad yellow light
cad orange
cad red light
alizarin permanent
dioxazine purple
ultramarine blue
manganese blue hue
permanent green light
sap green

You don't have to go out and buy all the colors. Bring the paints that you have. Quality paints do make a difference. Inexpensive paints can sometimes be disappointing when trying to achieve a bright, clean color.

Bring a variety of brushes and make sure the brushes are not splayed, that can be frustrating.
